

Assistant Medical Director, Winnipeg

A leading Canadian insurer invites you to apply your medical training, experience and case management skills outside of a clinic environment. As a member of Great-West Life's Medical Team with administrative support at our Winnipeg Head Office, you will work closely with our individual and group insurance business units, primarily in relation to individual disability insurance, critical illness insurance, and group life, health and disability insurance. You will review results of case assessments and other reports and provide comprehensive medical recommendations. You will also review the determinations of the Medical Team and may occasionally act as a medical resource for our Occupational Health Services department.

The Assistant Medical Director's responsibilities require at least 30 hours of office time each week. The successful candidate will be a qualified MD who has held a Canadian medical license for at least five years.

Take the next step.

Great-West Life provides a challenging, team-oriented work environment, competitive salary and benefits, an appealing workplace with amenities, and opportunities for personal and professional growth.
